

Christophe Tesconi

Full Stack Web Developer

React · Symfony - **Full Remote**

Mail : chris.link@hotmail.fr

LinkedIn : linkedin.com/in/christophe-tesconi/

English : C1 level

French : native language

PROFILE

Curious, autonomous, and committed, I have coded front and back projects with **React**, **JavaScript**, MySQL, HTML5 & CSS3, **PHP**, **Symfony**, Laravel, **TypeScript**, **REST API**, **Node.js** focusing on quality and maintainability. I leverage the discipline gained in cooking and my passion for tech to build robust and modern solutions. I fully embrace **continuous learning** and high code quality. I excel in teamwork, communication, and problem-solving. Ready to fully commit to a challenging environment. Trained in Agile Scrum methodology with project management on Trello.

PROFESSIONNAL EXPERIENCE

Full Stack Web Developer – gaea21 – Geneva (**Full Remote**)

March 2024 – Present

- Migrated legacy app from Symfony 5.3 to Symfony 7 with **React** integration (via Vite)
- Rebuilt API communication between front and back
- UI/UX redesign with responsive and adaptive components
- Dynamic interface improvements and real-time updates
- Deployed the app to production and handled multi-environment setup
- **Testing**

Stack : Symfony 7, PHP 8, **React**, **REST API**, GitLab, Sass, Webpack, npm

Back-end Developer – Remote Project

O'clock School (Agile team project) | Mar 2023

- Team project (5 devs) – business management app (CRM-style)
- Database architecture, business logic, user management
- Applied design patterns: MVC, Factory, Dependency Injection

Stack : Symfony, **React**, **REST API**, Tailwind CSS, Bootstrap, GitHub

Personal Project

Origami – Personal Web Application

Complete development of a web application intended for origami enthusiasts. Each user can create an account, publish their creations, view those of others, save favorites, comment, and access a secure back-office to manage their content.

Main features:

- Secure authentication with email verification
- Create, update, delete content (full CRUD)
- Admin interface restricted to "admin" roles
- Implementation of protection against attacks (XSS, brute-force, CORS)
- Custom REST API for front/back communication
- Versioned on GitHub with branching, regular commits, and best practices
- Developed locally (PHP server) then deployed on o2switch. Application compliant with OWASP and CNIL recommendations.

Stack : Symfony, PHP, **PostgreSQL**, HTML5/CSS3, **JavaScript**, **REST API**, **GitHub**, Insomnia

EDUCATION

O'clock School – Paris (remote training)

Web Developer – Associate's Degree Level (Bac+2)

March 2023 – March 2024

Intensive full stack program:

- Front-end specialization: **React.js**, Next.js, **TypeScript**, Tailwind CSS, Bootstrap
- Back-end specialization: Symfony, PHP, Doctrine, **REST API**
- Databases: SQL, PhpMyAdmin
- Progressive modules combining HTML/CSS, PHP, JavaScript, system administration, Git/GitHub, teamwork – solid technical foundation
- Version control with Git & GitHub, Agile project methodology

Certified Professional Title – Web & Mobile Web Developer

CERTIFICATIONS

Professional Certificate
equivalent to Associate's
Degree obtained at the end
of my training

Other expériences

20 years of experience as a cook and head chef in France, London, and Japan (Alain Ducasse, Bernard Loiseau), where I developed discipline, leadership, team management, and operational excellence in high-pressure environments.

Strengths

- **Discipline, high standards and attention to detail (20 years in professional kitchens, excellence under pressure)**
- Leadership & team management (head chef in 6 restaurants, up to 20 staff managed)
- **Autonomy, efficiency and initiative in demanding environments**
- Stress resilience, deadline-driven, result-oriented mindset
- Responsiveness and adaptability to unexpected challenges (customer service, urgency, constraints)
- **Fast learner (self-taught and passionate about IT, quick skill acquisition)**
- Kind communication, team spirit and strong collaboration mindset
